§3.4 Entry Ticket: Transforming Sine

Name: _____ Date: _____

1. For $y = -\sin(2x) + 1$, name each effect. Is it inside or outside the function, and does it change the domain or the range?

piece	effect	inside or outside the function	D or R
$-$			
2			
$+1$			

2. Fill in the T-chart for $y = -\sin(2x) + 1$, with parent $f(x) = \sin x$, then graph it.

Tx = _____	x	$y = \sin x$	Ty = _____
