3.4 Trig Graphs with πx

Recall: 3.4 Tangent and 3.3

Name _____ **Solo – 9 minutes**

1. For $y = \tan x$ on $-180^\circ \leqslant x \leqslant 180^\circ$, find the zeros and the vertical asymptotes (VA). What is the period?

2. For $y = 2\sin(\pi x)$, find a, k and the period. (360° is 2π.)

3. Fill in the table.

x	0	$\frac{1}{2}$	1	$\frac{3}{2}$	2
$-2\sin(\pi x)$					

Where would $y = -2\csc(\pi x)$ have its VA?
